

Languages in Motion Ltd.

In collaboration with Saskatoon Police Service

“We Envision a World Where Language Is No Longer a Barrier”

At LiM, we are privileged to serve as a bridge between people who, because of their language barriers, are unable to access the services that they need.

To assist us in fulfilling that bold vision, we are constantly **looking for talented linguists** who are spurred by the same desire and are dedicated to using their language skills in service of our community, namely through **Police agencies**. Specifically, we are looking at **interpreters** who will be able to attend in person for short-term and long-term investigations and receive on-demand telephone or video calls; **translators** who can help us translate community materials; and **transcriptionists/Certified Translators** who can assist with audio transcripts that are sensitive in nature. A valid Police Clearance is required, and depending on the work, an Enhanced Security Clearance may be requested.

Eligible Interpreters are welcome to be part of our Mobile App and Interpreter Network!
